

Gap-Resolution Tracker

88 source-supported review items | Draft for assignment

Assign owners and dates, record the controlling decision/version, and close only when the specified evidence is available. No owner, priority, due date, or completed decision has been inferred. Duplicate source tasks are retained when their references or closure responsibilities differ.

Scope

Items include policy review cases, every source-stated build/review bullet, absent manuals and external references, missing draw.io targets, required record availability, and unresolved citation/returns questions.

Use

The Markdown companion contains a full editable record for every issue, including decision notes, verifier, and closure date. Blank assignment fields on these printed rows can be completed by hand. C01-C12 refer to the Policy-Conflict Review. Source codes resolve in the source register at the end.

Counts by category

Direct threshold mismatch: 1
Approval-status conflict: 1
Schedule / scope reconciliation: 1
Apparent internal schedule conflict: 1
Working versus legacy ownership: 1
Approval-authority mismatch: 1
Target approval / definition gap: 1
Target approval gap: 1
Method and target approval gap: 1
Archived rule presented as current: 1
Historical cadence requires confirmation: 1
Definition / controlling-source gap: 1
Source-stated open work: 37
Missing manual source: 5
External reference not supplied: 21
Missing draw.io page target: 6
Controlled record/template availability: 5
Unresolved question in SOP: 1
Unresolved citation provenance: 1

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G001 Receiving	TCS screen and acceptance boundaries Direct threshold mismatch Sources: d45, d39, d31, d24, drawio Review: C01 The detailed diagram screens cooler surface temperature at $\leq 40^{\circ}\text{F}$ and labels temperature abuse as $>41^{\circ}\text{F}$. The policy defines a refrigerated safe zone at or below 40°F and a danger zone beginning at 41°F; its receiving steps trigger probing above 41°F. / The Receiving Standards Register, Operations snapshot, and draw.io Receiving card state TCS at or below 41°F. The register explicitly requires alignment of detailed flowchart decision labels.	Which current approved temperature policy governs each measurement and product class? Confirm surface-screen trigger, probe trigger, core acceptance boundary, and disposition authority; then align all labels.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G002 Inventory	ABC variance tolerances Approval-status conflict Sources: d19, drawio, d16 Review: C02 Cycle Count Standards lists A $\pm 0.5\%$, B $\pm 1\%$, C $\pm 2\%$. The draw.io Inventory card presents the same percentages as variance tolerance gates. / The Inventory Standards Register says generic ABC frequencies and tolerance percentages need operational approval before they are treated as current rules.	Approve or replace the tolerances, define the variance calculation and classification, and identify the controlling version for each facility.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G003 Inventory	Generic ABC schedule versus warehouse/category schedule Schedule / scope reconciliation Sources: d19, d20, d16, d18 Review: C03 Cycle Count Standards says A items monthly or quarterly, B semi-annually, C annually, with fast movers prioritized. / The cycle-count SOP has weekday schedules for WH1/WH2, quarterlies, cigarettes, B/BN sections, rolled chew, Zyn, and stamps. The register requires completion of an approved daily/weekly/monthly/quarterly schedule; the index calls for publication of an approved warehouse/category schedule.	Publish the controlling calendar by facility, warehouse, category, and ABC class. Resolve overlaps and explicitly map warehouse names.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G004 Inventory	WH2 stamp count timing Apparent internal schedule conflict Sources: d20 Review: C04 Section 4, Warehouse 2 schedule: Friday is Cigarettes and Stamps. / Section 5, Stamp Counting Frequency: WH2 monthly counts required; WH1 weekly counts required.	Confirm whether WH2 stamps are counted every Friday or on a designated monthly Friday. Publish exceptions and distinguish cigarette counts from stamp counts.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G005 Inventory	Named count and adjustment assignments Working versus legacy ownership Sources: d20, d15, d16 Review: C05 The SOP names WH2 Jessica for counts and Jackie for adjustments; WH1 Mitch for counts and Mitch/Roudy for adjustments, with additional stamp assignments. / The working ownership model lists Inventory Auditor Mitch/Shelly and Inventory Manager Roudy/Jacque, separates preparation from approval, and says it needs approval before final issue. The register flags older names and spelling variations.	Approve role ownership and authority by facility, verify names and warehouse mapping, and update the controlled SOP and roster together.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G006 Inventory	Supervisor versus manager adjustment approval Approval-authority mismatch Sources: d19, d15, d17, d16 Review: C06 Cycle Count Standards describes supervisor approval above tolerance and authorization based on variance value: supervisor for minor, manager for major. / The working ownership model assigns review and approval to the Inventory Manager. Cycle Count to Closure includes Manager review and approval. The register requires preparation and approval to be separated for every adjustment.	Publish the adjustment authority matrix, value limits, delegation rules, reason codes, and separation requirements.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G007 Receiving	98% receiving accuracy and its calculation Target approval / definition gap Sources: d40, d41, d42, drawio, d31 Review: C07 Standards specifies quantities matching POs at 98%; the outline describes a percentage of shipments without errors/discrepancies; the frontline document describes a 98% PO-to-receipt match accuracy, and draw.io calls it a target. / The register cites 98% but explicitly asks whether the target remains approved for both locations.	Confirm the target by facility and define numerator, denominator, treatment of exceptions, reporting period, and system of record.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G008 Fulfillment	99% order accuracy at both sites Target approval gap Sources: d10, drawio, d03 Review: C08 Fulfillment Department Standards says quantities picked versus the order must be 99% accurate; the draw.io Fulfillment card uses a 99% accuracy core standard. / The register cites 99% and asks whether it remains the approved target at both sites.	Confirm site applicability, calculation, current approval, reporting period, and controlling document.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G009 Fulfillment	Labor efficiency and overtime accountability Method and target approval gap Sources: d10, d03 Review: C09 Department Standards lists labor efficiency within 5% of site-specific standards and overtime below 10% of total hours. / The register requires validation of labor normalization methodology before scorecard use and confirmation of the approved overtime target before accountability.	Approve the site-specific baseline, units, volume normalization, overtime denominator, exclusions, and target version.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G010 Transportation	24-hour customer-discrepancy reporting Archived rule presented as current Sources: drawio, d55, d24, d57 Review: C10 The draw.io Transportation card presents a 24-Hour Office Loop to the Returns Specialist. / The Transportation register and Operations snapshot identify 24 hours as coming from archived MT/ID procedures and require confirmation of current policy. The index calls for one approved MT/ID procedure and current contacts.	Confirm the current deadline, trigger time, office channel, receiving role, MT/ID contacts, and escalation if reporting fails.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G011 Safety	Safety training and committee cadence Historical cadence requires confirmation Sources: d49, d51 Review: C11 The Safety Standards Register reports that the archived 2019 manual describes monthly training and quarterly committee meetings. / The same register says those cadences must be confirmed before being labeled current. The index requires a current annual training matrix, committee calendar, and controlled manual.	Obtain the current controlled manual and confirm training and committee requirements, then issue the matrix/calendar.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G012 Receiving	Short-date provisional acceptance limit Definition / controlling-source gap Sources: d39, d31, d33 Review: C12 The policy allows provisional acceptance of short-dated items within 10% of the acceptable date range as defined by Purchasing policies; expired product is refused. It also says TCS must remain in the safe range. / The register limits provisional acceptance to documented criteria. The index lists a provisional acceptance record, but the supplied package has no separate Purchasing date-range policy or controlled record template.	Supply the controlling Purchasing date-range policy, product minimums, calculation examples, provisional record, and release authority.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G013 Fulfillment	Confirm whether the 99% accuracy target remains the approved target at both sites. Source-stated open work Sources: d03 Review: C08, C09 Required Review: Confirm whether the 99% accuracy target remains the approved target at both sites.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G014 Fulfillment	Confirm the approved labor normalization method and overtime target before using either for accountability. Source-stated open work Sources: d03 Review: C08, C09 Required Review: Confirm the approved labor normalization method and overtime target before using either for accountability.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G015 Fulfillment	Review detailed controls in 4. Policies and frontline steps in 6. Frontline Document. Source-stated open work Sources: d03 Required Review: Review detailed controls in 4. Policies and frontline steps in 6. Frontline Document.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G016 Fulfillment	Link the approved training checklists for MT and ID. Source-stated open work Sources: d05 Build Queue: Link the approved training checklists for MT and ID.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G017 Fulfillment	Link the current scorecard and productivity report. Source-stated open work Sources: d05 Build Queue: Link the current scorecard and productivity report.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G018 Fulfillment	Add controlled document owners and review dates. Source-stated open work Sources: d05 Build Queue: Add controlled document owners and review dates.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G019 Inventory	The existing cycle-count SOP contains older names and spelling variations that conflict with the current alignment work. Source-stated open work Sources: d16 Review: C02, C03, C05, C06 Known Cleanup: The existing cycle-count SOP contains older names and spelling variations that conflict with the current alignment work.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G020 Inventory	The generic ABC frequencies and tolerance percentages in Cycle Count Standards need operational approval before they are treated as current rules. Source-stated open work Sources: d16 Review: C02, C03, C05, C06 Known Cleanup: The generic ABC frequencies and tolerance percentages in Cycle Count Standards need operational approval before they are treated as current rules.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G021 Inventory	Issue one approved cross-warehouse cycle-count SOP. Source-stated open work Sources: d18 Build Queue: Issue one approved cross-warehouse cycle-count SOP.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G022 Inventory	Publish the approved count schedule by warehouse and category. Source-stated open work Sources: d18 Review: C03 Build Queue: Publish the approved count schedule by warehouse and category.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G023 Inventory	Link the adjustment authority matrix and reason codes. Source-stated open work Sources: d18 Build Queue: Link the adjustment authority matrix and reason codes.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G024 Inventory	Finalize the Returns Specialist transition and Idaho coordinator coverage. Source-stated open work Sources: d18 Build Queue: Finalize the Returns Specialist transition and Idaho coordinator coverage.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G025 Receiving	Confirm whether the 98% receiving-accuracy target remains approved for both locations. Source-stated open work Sources: d31 Review: C01, C07, C12 Required Review: Confirm whether the 98% receiving-accuracy target remains approved for both locations.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G026 Receiving	Align the detailed flowchart's temperature decision labels with the current 41°F TCS threshold. Source-stated open work Sources: d31 Review: C01, C07, C12 Required Review: Align the detailed flowchart's temperature decision labels with the current 41°F TCS threshold.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G027 Receiving	Confirm current approval contacts before publishing names or phone trees. Source-stated open work Sources: d31 Review: C01, C07, C12 Required Review: Confirm current approval contacts before publishing names or phone trees.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G028 Receiving	Replace placeholder pages 8.SOPs and 9. Forms & Templates with approved links. Source-stated open work Sources: d33 Build Queue: Replace placeholder pages 8.SOPs and 9. Forms & Templates with approved links.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G029 Receiving	Add document owners, revision dates, and facility-specific exceptions. Source-stated open work Sources: d33 Build Queue: Add document owners, revision dates, and facility-specific exceptions.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G030 Receiving	Confirm that every form used in MT and ID is represented. Source-stated open work Sources: d33 Build Queue: Confirm that every form used in MT and ID is represented.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G031 Safety	Current training and safety-committee cadence Source-stated open work Sources: d49 Review: C11 Items Requiring Current-Policy Confirmation: Current training and safety-committee cadence	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G032 Safety	Medical escalation and designated provider process Source-stated open work Sources: d49 Items Requiring Current-Policy Confirmation: Medical escalation and designated provider process	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G033 Safety	Post-accident and reasonable-suspicion testing rules Source-stated open work Sources: d49 Items Requiring Current-Policy Confirmation: Post-accident and reasonable-suspicion testing rules	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G034 Safety	Current emergency contacts and assembly areas Source-stated open work Sources: d49 Review: C11 Items Requiring Current-Policy Confirmation: Current emergency contacts and assembly areas	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G035 Safety	Forklift retraining, suspension, and recertification thresholds Source-stated open work Sources: d49 Review: C11 Items Requiring Current-Policy Confirmation: Forklift retraining, suspension, and recertification thresholds	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G036 Safety	Current safety scorecard and telematics coaching thresholds Source-stated open work Sources: d49 Items Requiring Current-Policy Confirmation: Current safety scorecard and telematics coaching thresholds	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G037 Safety	Replace the 2019 manual with a reviewed, current controlled manual. Source-stated open work Sources: d51 Build Queue: Replace the 2019 manual with a reviewed, current controlled manual.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G038 Safety	Publish the current medical-response and post-incident testing decision guides. Source-stated open work Sources: d51 Build Queue: Publish the current medical-response and post-incident testing decision guides.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G039 Safety	Link approved incident, near-miss, forklift, and vehicle forms. Source-stated open work Sources: d51 Build Queue: Link approved incident, near-miss, forklift, and vehicle forms.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G040 Safety	Publish the current annual training matrix and committee calendar. Source-stated open work Sources: d51 Review: C11 Build Queue: Publish the current annual training matrix and committee calendar.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G041 Safety	Maintain a current contact and escalation roster outside the policy text. Source-stated open work Sources: d51 Build Queue: Maintain a current contact and escalation roster outside the policy text.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G042 Transportation	Approve a transportation scorecard for delivery accuracy, route completion, safety, compliance, and labor/hours. Source-stated open work Sources: d55 Review: C10 Target Gaps: Approve a transportation scorecard for delivery accuracy, route completion, safety, compliance, and labor/hours.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G043 Transportation	Confirm the active hours-of-service and internal workload limits in the controlling policy. Source-stated open work Sources: d55 Target Gaps: Confirm the active hours-of-service and internal workload limits in the controlling policy.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G044 Transportation	Confirm current discrepancy contacts for both warehouses; the archived ID procedure has blank fields. Source-stated open work Sources: d55 Review: C10 Target Gaps: Confirm current discrepancy contacts for both warehouses; the archived ID procedure has blank fields.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G045 Transportation	Publish current pre-trip/post-trip and defect escalation SOPs. Source-stated open work Sources: d57 Build Queue: Publish current pre-trip/post-trip and defect escalation SOPs.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G046 Transportation	Publish load verification and securement SOPs. Source-stated open work Sources: d57 Build Queue: Publish load verification and securement SOPs.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G047 Transportation	Replace the archived discrepancy procedures with one approved MT/ID standard and current contacts. Source-stated open work Sources: d57 Review: C10 Build Queue: Replace the archived discrepancy procedures with one approved MT/ID standard and current contacts.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G048 Transportation	Link current driver qualification, incident, and compliance forms. Source-stated open work Sources: d57 Build Queue: Link current driver qualification, incident, and compliance forms.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G049 Transportation	Approve the transportation KPI scorecard. Source-stated open work Sources: d57 Build Queue: Approve the transportation KPI scorecard.	Provide the reviewed document, decision, or linked evidence that completes this source-stated item. Record the controlling version and site applicability.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G050 Fulfillment	Doyles_Sheehan_Fulfillment_Department_Manual.docx Missing manual source Sources: d06 The supplied Markdown explicitly warns that this referenced file was not present.	Obtain the referenced manual or record the approved replacement/version. Compare the available Markdown against it before claiming manual completeness.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G051 Fulfillment	Doyles_Sheehan_Fulfillment_Policies_and_Standards.docx Missing manual source Sources: d09 The supplied Markdown explicitly warns that this referenced file was not present.	Obtain the referenced manual or record the approved replacement/version. Compare the available Markdown against it before claiming manual completeness.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G052 Fulfillment	Doyles_Sheehan_Fulfillment_Manual.docx Missing manual source Sources: d11 The supplied Markdown explicitly warns that this referenced file was not present.	Obtain the referenced manual or record the approved replacement/version. Compare the available Markdown against it before claiming manual completeness.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G053 Receiving	Doyles_Sheehan_Receiving_Department_Manual.docx Missing manual source Sources: d34 The supplied Markdown explicitly warns that this referenced file was not present.	Obtain the referenced manual or record the approved replacement/version. Compare the available Markdown against it before claiming manual completeness.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G054 Receiving	Doyles_Sheehan_Receiving_Manual.docx Missing manual source Sources: d42 The supplied Markdown explicitly warns that this referenced file was not present.	Obtain the referenced manual or record the approved replacement/version. Compare the available Markdown against it before claiming manual completeness.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G055 Fulfillment / Receiving	04 People/Brenden Magill External reference not supplied Sources: d09, d11, d42, d36 The reference points outside the supplied documents. Absence from this package does not prove the file does not exist elsewhere.	Supply the referenced document or confirm an approved replacement. For a people/project/area link, decide whether to supply it, replace it, or intentionally exclude it from the binder.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G056 Inventory / Operations	02 Active/Inventory Department Alignment/00 Inventory Department Alignment External reference not supplied Sources: d13, d18, d27 The reference points outside the supplied documents. Absence from this package does not prove the file does not exist elsewhere.	Supply the referenced document or confirm an approved replacement. G081 Operations	data:page/id,page_facilities Missing draw.io page target Sources: drawio A data:page link is present, but the supplied file is a single mxGraphModel with no matching diagram page wrapper.	Supply the missing page or map its navigation to the existing supported workflow. Do not reconstruct an absent facility matrix without evidence.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G082 Fulfillment	Verify availability of the required records named in the training index Controlled record/template availability Sources: d05 Training and competency sign-offs; Rehire verification, when used; Picking and accuracy reports; Short and no-pick review records; Jurisdiction and stamp count records; Route upload, invoice, and loader documentation; Safety or corrective-action records	Link the approved record, template, or system for each named record. Verify access and site applicability; a document index is not the template itself.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G083 Inventory	Verify availability of the required records named in the training index Controlled record/template availability Sources: d18 Approved cycle-count calendar; Blind count and recount records; Variance research and adjustment approval; Negative, lost-sales, no-location, and discontinued-item reports; Date-code, QC, hold, and quarantine records; Return, damage, credit, donation, and disposition records; Activation/discontinuation, substitution, and deduction tracking; Training and authorization records	Link the approved record, template, or system for each named record. Verify access and site applicability; a document index is not the template itself.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G084 Receiving	Verify availability of the required records named in the training index Controlled record/template availability Sources: d33 BOL and receiving record; Receiving and temperature logs; Temperature Deviation Investigation Report; Non-Conformance Report; OSD evidence and communication record; Provisional acceptance record; Special-order documentation; Put-away and scan records; Training sign-offs	Link the approved record, template, or system for each named record. Verify access and site applicability; a document index is not the template itself.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____

ID / Area	Gap and source evidence	Evidence required for closure	Assignment / decision
G085 Safety	Verify availability of the required records named in the training index Controlled record/template availability Sources: d51 Initial injury/incident report; Supervisor investigation and root-cause record; Near-miss or hazard report; Corrective-action log; Training attendance and competency records; Equipment authorization and inspection records; Vehicle inspection and accident records; Emergency drill and committee records	Link the approved record, template, or system for each named record. Verify access and site applicability; a document index is not the template itself.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G086 Transportation	Verify availability of the required records named in the training index Controlled record/template availability Sources: d57 Driver qualification and training file; Vehicle inspection and malfunction report; Route/load verification record; Delivery signature, count, photo, tote, and crate record; Delivery discrepancy record; Incident and accident record; Hours, fuel, mileage, IFTA/IRP, and route closeout records as applicable; Coaching and corrective-action records	Link the approved record, template, or system for each named record. Verify access and site applicability; a document index is not the template itself.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G087 Inventory	Returns on trucks and processed returns before counting Unresolved question in SOP Sources: d20 The SOP asks: How are we reconciling returns on trucks or processed returns? It also requires returns processing before counting affected areas.	Document the approved reconciliation and physical-storage verification method, responsibility, evidence, and count-release condition.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
G088 Receiving / Fulfillment	Numeric [cite: ...] markers in frontline text Unresolved citation provenance Sources: d42, d11, d09 The supplied frontline/policy text includes numeric citation markers without a supplied citation bibliography or original referenced manuals.	Restore a traceable bibliography or replace markers with verified controlling-source references. Do not treat numeric markers alone as proof of authority.	Owner: _____ Due: _____ Priority: _____ Status: Open / _____ Decision ref: _____ Verified by/date: _____
